- AB - DE2005009668 NOVELTY - A motor vehicle fitting part, especially a holder for utensils or an ashtray, comprises base (2), sidewalls (3), a cover (4) with screen (5) and carrier (6) integrated into the vehicle. An electroluminescent foil (7) between the screen and carrier can give illumination through transparent regions (8) in the screen or carrier.
- USE - As a fitting for utensils or an ashtray in a motor vehicle interior (claimed).
 - ADVANTAGE - The holder is easily seen operated in the dark, e.g., for frequent use of the ashtray.
 - DESCRIPTION OF DRAWING(S) - A perspective view of the object is shown.
